Arcane Crypto AB will apply for US listing on OTCQB

The Board of Arcane Crypto AB have today approved the company's plan to apply for a dual listing on OTCQB, a US trading market operated by OTC Markets Group for securities not listed on a national exchange. Arcane Crypto will apply for admission to trading on OTCQB and expects an approval during the first quarter of 2022.

The purpose of listing Arcane Crypto on OTCQB is to make it easier for US investors to invest in Arcane Crypto and increase liquidity in the share. An OTCQB listing would allow Arcane Crypto's shares – listed on Nasdaq First North Growth Market in Sweden – to be cross-traded on OTCQB. Once approved the company's shares will be freely traded securities with a US ticker symbol and a USD share quote and thus available to all US investors.

"Arcane has received considerable interest from US-based investors who are considering investing in the crypto market. We therefore believe it is important that we have a presence in US capital markets and OTCQB will provide convenience to US investors, brokers and institutions seeking to gain exposure to our shares," says Torbjørn Bull Jenssen, CEO of Arcane Crypto.
